Subject: RE: CanCham CSR Subcommittee Meeting on 18 Oct 2004

Urgent

Return Receipt

Dear Jamie,

Thank you for your informative presentation at the Corporate Social Responsibility sub-committee of the Canadian Chamber of Commerce. We have discussed this issue among our committee members.

Our response is that we are 100% in favour of going ahead promptly with this scheme. Our only additional comment is that we hope that the scheme will give consideration to the robustness of the design should one part of the system fail. We should not be in a position to be left without a working system if one site experiences failure or damage.

Kindly excuse the response by email, but I understand that response by all media are welcomed. Let me know if you need a more formal reply.

Best regards,

Gail Kendall, Chair  
Sustainable Development Committee  
Canadian Chamber of Commerce in Hong Kong
