RE: HARBOUR AREA TREATMENT SCHEME

Dear Sir/Madam:

With future population expansion, sewage treatment plant would not be limited to Stonecutters Island Treatment Works. I would like Stonecutter Is. Plant covers densely populate Kowloon. Tseung Kwan O plant is to cover Kwun Tong industrial area, eastern part of Kowloon and the most area of Hong Kong Island. An additional plant at ~~Sandy Bay, Pokfulam~~ *Shek Pai Wan* is reserved for future capacity and expansion of the Harbour Area Treatment Scheme.

Your attention to my initiative is appreciated.

Yours truly,

Brian Yu
