Attn: Mr. Elvis W.K. Au

Dear Sir,

**First Stage Public Engagement Exercise for the
Review and Development of Marine Water Quality Objectives**

Thank you for inviting the Hong Kong Waste Management Association (HKWMA) to provide our views and comments on the Review and Development of Marine Water Quality Objectives.

HKWMA is the premier organisation representing professionals in Hong Kong's solid waste management and environmental industries, and we take an active interest in all areas represented by our membership.

Upon examination of the information provided, we write to advise you that we in principle support the review and development exercise, and have nothing to supplement at this stage. We welcome further opportunity to participate and provide input during the course of this exercise at a later stage.

We wish you all the success during the review and development exercise for a new set of WQOs for Hong Kong, both for the betterment of our living quality as well as preservation of our precious marine water.

Yours Faithfully,
for Hong Kong Waste Management Association

Louis CHAN
Chairman
