

Tolo Harbour Action Plan

- The water quality of Tolo Harbour was poor in 80's with increasing number of red tides incidents.
- To reduce pollution to the harbour, the Tolo Harbour Action Plan (THAP) was implemented since 1987 and Tolo Harbour Effluent Export Scheme (THEES) was implemented since 1995.
- Today, the water quality at Tolo Harbour as well as Kai Tak Nullah is markedly improved.
