

Kin Shing (Leung's) General Contractors Ltd. is a member and subsidiary of **Sundart International Holdings Limited** since October 2010. We are a building contracting firm specializes in the area of construction works, , renovation and A&A works, fitout/interior decoration, repair and maintenance works. KinShing always abide our aim – “To render professional project management expertise to our valued clients through our contract services”. Our main focus is to provide top-quality workmanship and on-time delivery schedule to the satisfaction of our clients that we participate in each project.

To achieve our business vision, environmental-friendliness is always an important principle throughout our construction work flow. ISO14001, a widely driven and well-recognized standard of environmental management systems, helps Kin Shing to define a blueprint of practice. We are proud of our commitment from top management to implementation of environmental policies and site work operations.

We are grateful for the accreditation of ISO14001, which is not only a recognition of our environmental goodwill, but also an enhancement of our corporate social responsibility and commitment towards the society. In the future, we will continuously investing on environmental protection and promoting concepts of environmental conservation.
