

**DRAINAGE SERVICES DEPARTMENT - THE GOVERNMENT OF THE HKSAR
(CONSULTANTS MANAGEMENT DIVISION & PROJECT MANAGEMENT DIVISION)**

Scope: Development and provision of consultants management and project management services for drainage, sewerage and sewage treatment projects.

Even though the establishment of DSD is environmentally driven, the construction and operation processes of DSD have impacts on the environment as all other engineering works do. It is therefore important that Environmental Management Systems should be available for DSD to highlight its commitment to environmental enhancement and protection in carrying out its duties.

Robin J T Tung
for Director of Drainage Services
