## **Environmental Protection**

The Registry is very conscious of the importance of environmental protection and is committed to developing and conducting all our services and operations in an environmentally responsible manner. A Green Manager and four Assistant Green Managers have been tasked to oversee the development and implementation of green measures in the department. We have adopted the following environmental policies and principles to improve the environment:-

- (a) Encouraging the efficient use of energy and materials by adopting the three "R" principles Reduce, Re-use and Recycling of materials, and green purchasing.
- (b) Maintaining a high level of environmental awareness amongst staff and encouraging them to practise green environmental measures.
- (c) Complying with legislation, regulations and standards on environmental protection.
- (d) Minimising waste and contaminants and ensuring the safe handling of waste produced.
- (e) Pursuing environmental protection through the adoption of environmental friendly modern technologies, minimisation of possible adverse impact on the environment, and continuing to find ways to improve the Registry's environmental performance.
- (f) Conducting environmental audits by independent experts as and when necessary.

Our targets and actual performances are as follows:-

|   |                 | Performance |                 |  |
|---|-----------------|-------------|-----------------|--|
|   | Target for 2003 | in 2003     | Target for 2004 |  |
|   | %               | %           | %               |  |
| (a) Waste Minimisation  |                 |             |                 |  |
| <ul> <li>using blank side of used pape<br/>drafting</li> </ul>            | er for 99       | 99          | 99              |  |
| <ul> <li>using recycled/wood-free paper</li> </ul>                        | 100             | 100         | 100             |  |
