

Environmental Concerns

Our Pledge

We will explore the feasibility of environmental management measures and increase staff awareness on environmental protection.

Our Achievement

We conducted the Legislative Council Election and 2 District Council By-elections in 2008. We have adopted various measures including using recycled paper for various activities, printing electoral publications with environmentally-friendly ink on paper made from woodpulp derived from sustainable forests, recovering waste paper for recycling, encouraging the use of electronic mail through different channels and motivating our staff to adopt green practices in their workplace.

Our Target

We shall make continuous efforts in achieving a greener working environment by promoting staff awareness and green measures in our daily operations. To reduce paper consumption, we will continue to explore the feasibility of economising the printing of election-related publicity materials and encourage registered electors to provide or update their email addresses.
