Dear Sir,

The Way Forward for Stage 2 of the Harbour Area Treatment Scheme

In response to your paper, I have the following comment :

1. Polluter Pays Principle

There is no reason why the tax payer should subsidize the polluters.

2. Public should be invited to monitor the progress

Liaison group could be formed to monitor the system. The progress should be reported to the public regularly.

Thank you for your attention.

Your sincerely,

Kam Kin Pong
