Subject: 'lets clean up our harbour

2004/07/22 09:49 AM

Dear Sir/Madam

I applaud your initiatives so far concerning the harbour clean up program as they have been, as seen by the naked eye, successful.

however, whats the point of cleaning up the harbour when looking out from the central star ferry, 500 meters from the current shoreline there is furious reclamation occuring. These two initiatives are a laughing matter and totally contradict one another.

either stop the reclamation or stop your initiative because tourists find it absolutely outrageous to reclaim more land, ruin the current tourist magnet skyline, and at the same time claim to be cleaning up the harbour? why bother clean it when you're going to reclaim it?

best wishes,

Hay Yau
