Subject: Comments on the consultation documents for the HATSS2

For whom it may concern

I have read the Consultation Document for the Harbour Area Treatment Scheme Stage 2, and I would like to make a few comments:

1. I agree that Option A is the best choice among the 4 options.
2. I think you can try to implement both Stage 2A and Stage 2B together, rather than implement Stage 2A first and then leave Stage 2B behind.
